- **Methodologies:** Waterfall, Agile, Scrum, Rapid methodology

Soft Skills

Communication, Quick Learner, Critical Thinking, Team Player, Leadership, Time Management, Problem Solving

ACHIVEMENTS & LEADERSHIP

- **Published NLP Researcher**: ICTer2023 🔗 Read Paper 🔗
- **Bronze Award**, IIT Excellence Awards 2024
- **MSc School & Course Representative**, Univ. of Westminster

EDUCATION

MSc Data Science and Analytics   2024/01 – 2025/01
University of Westminster   London,
Modules: Data Mining, Machine Learning, Big Data Theory and Practice, Business   United Kingdom
Optimisation, Business Analytics
Leadership: School Representative, Course Representative (2024–25)

BEng (hons) Software Engineering with Industrial Experience   2020/01 – 2023/08
University of Westminster   London,
Modules: Software Development Practices, Algorithms & Data Structures, Advanced   United Kingdom
Programming, AI & Data Analytics
Paper Published: TamZhi - AI Tamil Word Predictor, ICTer 2023 🔗

PROFESSIONAL EXPERIENCE

Data Science and Backend Developer   2022/09 – 2024/12
IT Domain   Australia(Remote)
- Led the "Intellijence" project using LLMs and image processing; improved model performance by 25%.
- Designed and developed RESTful backend services using Django.
- Collaborated in cross-functional teams to transform business requirements into data solutions.
- Deployed scalable, cloud-native applications in GCP.

Software Engineer Intern   2021/07 – 2022/07
Informatics International Limited   Colombo, Sri Lanka
- Improved software reliability by reducing bugs by 30% through rigorous testing.

- Wrote object-oriented code and reviewed peer submissions to maintain code quality.
- Collaborated on UX design and user journeys for enhanced usability.

Admin   2025/05 – Present
VIROSA Group Limited — London, UK • May 2025 – Present   London,
                                                                             United Kingdom
- Rebuilt and maintained **virosagroup.com** 🔗 (Shopify) for improved UX, SEO, and performance.
- Created & optimized product listings across Amazon, eBay, Etsy, Temu, TikTok Shop, and Shopify.
- Designed **Amazon A+ Content** (graphics, infographics, banners) to drive conversions.
- Produced platform-optimized imagery; designed barcode stickers and merchandise labels.
- Developed SEO-friendly titles, bullet points, and descriptions using keyword research.
- Managed orders & customer queries; collaborated on multi-channel marketing campaigns.

Tutor   2024/05 – 2024/08
Excel Academy   Harrow,
                                                                             United Kingdom
- Delivered personalized tutoring sessions for students in mathematics and computer science.
- Developed custom lesson plans tailored to individual learning needs, enhancing student understanding and performance.
- Provided feedback and tracked student progress, building communication and mentoring skills.
- Strengthened my ability to explain complex concepts clearly and motivate students.

Personal Assistant to Director   2024/03 – 2024/05
Red lounge limited   London,
                                                                             United Kingdom
- Provided comprehensive administrative and personal support to the Director, managing daily schedules, meetings, and travel arrangements.
- Handled confidential correspondence, maintained records, and ensured smooth communication between departments and external stakeholders.
- Prepared reports, managed emails, and followed up on action items to support efficient decision-making.
- Supported the Director in project planning and daily business activities, ensuring deadlines and priorities were met.
- Prepared reports and managed correspondence using **Microsoft Word and Excel**.
- Created presentation decks for meetings using **PowerPoint**.

PROJECTS

TamZhi (Individual NLP Project)
- Developed a predictive model for Tamil transliteration input (with/without vowels).
- **90%+ accuracy** using Python + Flask.
- Impact: Used in Tamil learning tools, published at ICTer2023 (University of Colombo) and won Bronze at IIT Excellence Awards. 🔗 Read Paper 🔗

Oggy Doggy (Group ML Project)
- Built a mobile app to detect dog emotions via image input.
- Achieved **85% accuracy**; supported early adoption in vet clinics for behavioral analysis.
